

Bumper Stickers for Software Testers

2009-04-28 12:06:38

Zbiór sentencji i cytatów na temat roli i pracy testera.

- Ask me about my latest bug.
- Honk if you love to crash software.
- My other car is a bug.
- Have you hugged your software tester today?
- Software Testers: Always looking for trouble.
- Software Testing is Like Fishing, But You Get Paid.
- Software Testers: "Depraved minds...Usefully employed." ~Rex Black
- Software Testing: Where failure is always an option.
- Software Testing: When Your System Actually Has to Work
- Software Quality: Don't ship without it.
- I don't make software; I make software better.
- Improving the world one bug at a time.
- Software Testing: You make it, we break it.
- Software Testers don't break software; it's broken when we get it.
- Software Testers: We break it because we care.
- To err is human; to find the errors requires a tester.
- If developers are so smart, why do testers have such job security?
- My software can beat up your software.
- A good tester has the heart of a developer...in a jar on the desk.
- Test is my copilot.
- If your software works, thank a tester.
- Old Model-Based Testers Never Die; They Just Transition to a Higher State.
- Life is too short for manual testing.
- Friends don't let friends do capture-replay.
- Support spec-based testing: Be code-dependent no more!
- People should think and machines should test.
- Test never sleeps.
- Visualize Great Software
- Trust, But Verify.
- Pertempto ergo sum – I test, therefore I am.
- Testers don't like to break things; they like to dispel the illusion that things work. ~ Kaner, Bach, Pettichord
- I came, I saw, I found lots of #\$\$@% bugs in your %\$#@ spaghetti code!
- I test, therefore it works.
- Testers don't go to work to make friends.
- Bad Code is Not Bad, Its Just Misunderstood.
- Test everything. Hold on to that which is good." - 1 Thessalonians 5:21
- Brain on, eyes open...test." ~ James Whittaker
- There's always one more bug.
- Testing...a target-rich environment.
- It did what? Well, it's not supposed to do that.
- My software never has bugs. It just develops random features.
- The Definition of an Upgrade: Take old bugs out, put new ones in.
- We break software so you don't have to.

- I used to build software...now I break it! Its a lot more fun!!
- We travel fast and we travel light - let's hunt some bugs!
- Bugs, bugses, we finds them, Preciousss.
- Software Testing: That Which Does Not Kill Us, Still Hurts A Lot
- We don't find bugs by chance , we create them by choice
- Ashes to ashes, dust to dust, and more bugs to squash!
- Our job is tell you your baby is ugly!
- Your code is buggy and your mom dresses you funny.
- Does your mother know what kind of code you write?
- Just test it
- To test, or not to test — there is no question
- Be verwy verwy quiet, I am hunting defects
- Passion-driven testing: Making every line of code feel dirty.
- Software Testing is a second-childhood: You broke it, and I'm telling.
- Code-Coverage Testing: Making every line of code feel dirty and used.
- All code is guilty, until proven innocent.
- Siamese Twins- Developers and Testers
- If it ain't broke, you're not trying hard enough.
- Only certainties in life: Death, taxes and bugs in code!
- Bug-Checking Is Brutally Cool! - Doonesbury
- Testing Delayed is Testing Denied
- Bugs are that which, when you stop believing in them, don't go away.
- Those are the bugs, if you don't like them...I have others
- Development is what you're capable of doing. PM determines what you do. Testing determines how well you do it.
- Development and testing are indispensable to each other.
- Only certainties in life: Death, taxes and bugs in code!
- Faith is fine in private life, but poison in software testing.
- Testing is organised skepticism.
- Testers do it over and over.
- Software Entomologist: Get bugs or die trying!
- Project Managers want it to work. Developers try to make it work. Customers hope it works. Testers know how it works.
- Software Testers - We succeed where others fail!
- I'm a Software Tester. Bug me all you want!
- Credit the Developer, Debit the Tester.
- If it works, its the developer, if not it's QA
- Hate the Tester,Love the programmer
- Down QAs, Up Developers
- Breakage is our business... and business is good.
- It's Automation, Not Automagic!
- It compiled on your system, but it committed suicide on mine!
- Test it now or test it later, either way it's gonna be tested.
- Semper Pertemptum: Always Testing
- Keep on Testin'
- You build it, we break it!
- Software Testing, not just a checkbox on your project plan.
- Software Testing, we save the best for last.
- Software Testing, we crash so you don't burn
- Quality Assurance, we take the blame so you don't have to.
- We don't create defects, we just find yours.

- My defect was a showstopper on build .645!
- I saved our customers from the showstopper in build .645!
- Software Testers Always go to Heaven ... they've already had their share of Hell!
- Old testers never die, they just regress.
- SQA: We eat bugs for breakfast.
- Software testers: we don't get headaches - we're just carriers.
- Got quality?
- QA Princess — Breaking hearts, breaking code!
- Hard on software but soft on programmer.
- Honk if you believe in bug free code, or the Easter bunny.
- Have bug?, will find!
- Development Is Like A Box of Chocolates, Testers Never Know What They Are Going To Get!!
- A tester is for life, not just Christmas.
- I brake for blue screens of death.
- In bugs we trust.
- Software Testing: The Bug Stops Here.
- In God we trust, and for everything else we test.
- If you can read this sticker it passed the usability test
- Exploratory Tester: Spec's are for wimps
- The great tragedy of Testing: the slaying of a beautiful hypothesis by an ugly fact.
- A bug in the hand is better than one as yet undetected.
- And on the seventh day, He shipped.
- Any sufficiently advanced bug is indistinguishable from a feature.
- Software Testing ... because computers are only human.
- Seeking out complexity is the essence of bug finding.
- Bugs are not an option: they're bundled with the software!
- Agile Testers of the world UNIT!
- If you can read this sticker it passed the usability test
- Exploratory Tester: Specs are for wimps
- The great tragedy of Testing: the slaying of a beautiful hypothesis by an ugly fact.
- When the testing gets tough, switch to test generation.
- Quando omni flunkus testerati (When all else fails, try testing.)
- Software testing - because computers are only human.
- Every morning is the dawn of a new error.
